The leftovers explained reddit

Hi all, Loved the series and have to admit I haven't quite gotten a handle on all the mysteries and questions that were introduced in season 1. I think I have a decent idea of a lot of it after reading some threads here, and I know that some people disagree on certain things since it was intentionally left up to us to form our own opinions. But I was wondering if there was any comprehensive "guide" to refer to in terms of questions that come up, and what our best guess at an explanation is. Lots of "Finale Explained" style posts, but what about season 1 stuff? It would be fun to do a full rewatch having something like that to refer to so I can clear up any confusions :) Page 2 16 comments
